PLEASE DO NOT UPLOAD TO ZEONIC'S WORK TO MANGA AGGREGATOR WEBSITES!

I work hard to bring you all a slice of Gundam lore that typically won't see an official translation. Please don't ruin it by uploading to these places. They won't take them down despite my requests, and many times when compilation volumes are released, they're missing subtle changes which enrich the story. Plus, I also correct past mistakes and blunders. I understand the desire to share these great works with everyone, but just leave that to us. Thanks!
